KENFACK GLEN TREVOR

Network Engineering / Cybersecurity Specialist

Digital Content Creator of the Year 2026 — COLTECH, University of Buea

PROFESSIONAL EXPERIENCE

2025 —
Present

- **Bug Bounty Researcher**
HackerOne (Authorized Security Research)
 - Conducted authorized security research on 1win platform via HackerOne
 - Identified chained CORS misconfiguration with OAuth token disclosure — CVSS 9.1 Critical
 - Investigated subdomain takeover candidates and sequential user ID IDOR vectors
 - Produced full professional vulnerability disclosure report

2024

- **IT Intern**
University of Buea Data Center (2 Months)
 - Supported server and network monitoring across enterprise data center infrastructure
 - Assisted in troubleshooting network connectivity, hardware faults, and system errors
 - Gained hands-on exposure to operational security and enterprise IT management
 - Documented incident reports and contributed to routine maintenance procedures

2023

- **Electronics & Hardware Repair Intern**
Electronics Repair Shop, Buea (5 Months)
 - Diagnosed and repaired computers, peripherals, and consumer electronics
 - Installed and configured operating systems and software environments
 - Provided technical support and customer service across a wide range of devices

COMMUNITY LEADERSHIP

2024 —
Present

- **Founder & Lead Trainer**
TechShield Cybersecurity Community, Buea
 - Founded and lead an active cybersecurity learning community in Buea
 - Organised bootcamps covering Linux fundamentals, wireless security, and ethical hacking
 - Led hands-on practicals including network scanning, wireless attack/defense, and CTF challenges
 - Mentoring the next generation of cybersecurity practitioners in Cameroon

EDUCATION

INTERESTS

- Ethical Hacking & CTF Competitions
- Tech Content Creation
- Football
- Checkers

- 2025 — 2027

- **B.Tech in Network Engineering (Final Year)**
University of Buea — College of Technology, Cameroon
 - Elected Auditor, COLTECH Student Executive Council (EXCO)
 - Active in CTF competitions and hands-on security research
- 2024

- **GCE Advanced Level**
Bilingual Grammar School Molyko, Buea
 - Passes: Pure Mathematics with Statistics , Chemistry , ICT
- 2021

- **GCE Ordinary Level**
Bilingual Grammar School Molyko, Buea
 - 10 subjects passed: Biology, Chemistry, Economics, English, French, Geography, Human Biology, Mathematics, Physics, Computer Science

KEY PROJECTS

- GT Blog with Admin CMS:** Full blog platform with rich text editor, analytics dashboard, and custom admin panel
- SkillsSync CM:** AI-powered labor market intelligence platform built for MTN YaMo Pitch Saison 4
- Telegram Remote PC Bot:** Python-based remote PC control bot with encryption, keylogging, and shell access (Glen Tech)
- VLAN Segmentation:** Network segmentation project using Mininet and Open vSwitch with Python automation script
- Python Network Monitor:** Automated network monitoring and alerting tool built in Python
- Hospital Network Setup:** Designed and deployed a fast and secure hospital network — power stations, routers, switches
- Student-Mentor Web Platform:** Fullstack web platform connecting students with mentors — HTML/CSS/JS/Firebase
- E-commerce Website:** Designed and deployed an e-commerce site for a local Buea business
- Home Lab:** Virtualized networking and cybersecurity practice environment on Kali Linux

CERTIFICATIONS & TRAINING

- Certified Red Team Operations Management (CRTOM)** | Red Team Leaders (Dec 2025)
- Certified Cybersecurity Educator Professional (CCEP)** | CourseStack (Nov 2025)
- Google IT Support Professional Certificate** | Google / Coursera (Jan 2026)
- Google Cybersecurity Professional Certificate** | Google / Coursera (In Progress)
- IoT, Wireless & Cloud Computing Emerging Technologies** | Yonsei University / Coursera (Mar 2025)
- Illinois Tech Coursera Partnership Program** | Illinois Institute of Technology, Chicago (2026)
- Introduction to Data Engineering** | IBM / Coursera
- Data Science Math Skills** | Duke University / Coursera
- Communication Strategies for a Virtual Age** | University of Toronto / Coursera
